

### Soundlevel

The new High Performance (HP) models are well below acceptable standards for noise levels and the units introduce outside air, which has been proven to greatly improve indoor air quality.

A test has been performed by the California Environmental Protection Agency to research the noise level of the PORT-A-COOL® units.

	<i>Low speed</i>	<i>Médium speed</i>	<i>High speed</i>
	19.4	24.8	29.1
	19.4	24.8	29.1
	18.4	24.8	37.3
	21.7	31.0	33.7
	10.5	20.3	35.2

- All measurements in dB
- All measurements taken 1 meter from fan
- All measurements taken with pump on
